

East West University

Department of Computer Science and Engineering

Course Code: CSE207

Course Title: Data Structure

**Project name: Trello Project Management Dashboard
Design API**

Group members:

Ahmed: 2023-3-60-128

Anika Bushra Oyshee: 2023-3-60-546

Abdullah-Al-Zeehan: 2023-3-60-139

Nusrat Rahman Aurna: 2023-3-60-057

Kaisan Faraz Jilan: 2023-3-60-197 Khaled

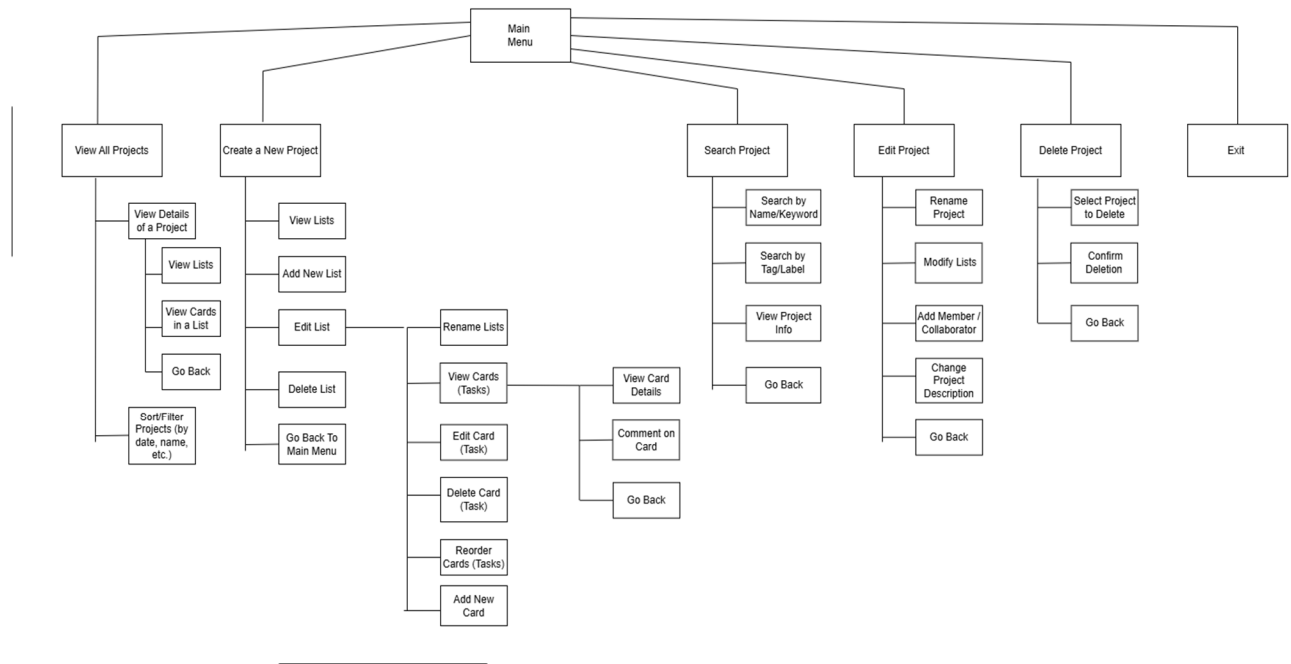

Khan Tahsin: 2022-3-60-232

Forhadul Amin: 2023-3-60-095

Tahmidul Islam: 2023-3-60-443

Pronob Chakraborty: 2023-3-60-438

Project Diagram:

Details of Pages:

View All Projects:

View Details of a Project: User can see information about their saved project.

- **View Lists:** Show the list of tasks to be done in a particular project.
- **View Cards in a List:** Tasks/Cards are shown in this section.
- **Go Back:** Press this to go back to the previous page.

Sort/Filter Projects (by date, name etc): User can sort their projects by name or the assigned date or by the date of deadline.

Create a New Project:

Add New List: User can add new lists to their project.

Edit List: User can edit their lists (if there is any).

- **Rename List:** User can change the name of the lists.
- **View Cards:** User can see their task-wise-cards.
 1. **View card details:** User can see every detail saved by them.
 2. **Comment on Cards:** User can comment important notes on card and watch them whenever needed.
 3. **Go Back:** Takes back to the previous page.
- **Edit Cards:** User can edit the information in the specific cards.
- **Delete Cards:** User can delete cards.
- **Reorder Cards:** User can priority-wise reorder cards.
- **Add New Card:** User can add a new card to their task list.

Search Project:

Search by Name/Keyword: User can search their projects by name or keywords like: project ID.

Search by Tag/Labels: User can search their project by tags like: serial no.

View Project Info: This takes the user to see their project info page.

Go Back: This takes back the user to the previous page.

Edit Project:

Rename Project: User can rename their project.

Modify Lists: This will take the user to edit task page.

Add Member/Collaborator: This will help the user to add a member to a project and assign a particular task to them.

Change Project Description: This is similar to edit project page.

Go Back: Takes the user to the previous page.

Delete Project:

Select Project to Delete: User is asked to select which project they want to delete.

Confirm Deletion: User is asked if they are sure about deleting a particular project.

Go Back: Takes the user to the previous page.

Exit:

User can exit the program or the application.
